Education

B.TECH (CSE)

I.K. Gujral Punjab Technical University

2021 – 2025 (CGPA: 7.42)

Internships

Draftss Pvt. Ltd.

Full Stack Developer

August 2025 – Present

- { Contributing to the design, development, and maintenance of enterprise-level web applications.
- { Working on **CPOS**, a secure and scalable client management platform.
- { Implementing **Docker**, **Redis**, and **Celery** for containerization, caching, and asynchronous tasks, with **PostgreSQL** for data management.
- { Developing responsive web applications using **Python**, **Django**, **HTML**, **CSS**, and **JavaScript**.

Vidhun Learnify Pvt. Ltd.

Full Stack Development Trainee

January 2025 – June 2025

- { Completed 6-month backend training with **Node.js**, **Express.js**, **React**, and **MongoDB**.
 - { Built and deployed backend services, designed RESTful APIs, and integrated third-party APIs.
 - { Worked on real-time projects like **Task Track** and **E-commerce APIs**, enhancing backend performance and security. {
- Node.js, AWS RDS, Express.js, MongoDB, React, RESTful APIs

3W Business Pvt. Ltd.

Backend Development Intern

July 2024 – September 2024

- { Built a scalable **coin-based wallet system** with **Node.js** and **MongoDB**, supporting 100K+ live users.
 - { Optimized API performance by improving database queries and adding **pagination** and **caching**.
 - { Developed secure **RESTful APIs** for transactions, wallet management, and admin dashboards. {
- Node.js, Express.js, MongoDB, Redis, JWT, AWS, Docker
- Projects

Care-Track

(Health Finance Management System)

August 2024

Care-Track

- { Implemented features such as secure user authentication, expense tracking, and seamless payment integration.
- { React JS, Node.js, HTML, CSS, MongoDB, OAuth

Aadarsh Interiors

October 2023 - November 2023 (E-commerce Platform)

Aadarsh Interiors

- { Developed a responsive web application for Aadarsh Interiors to showcase design portfolios and services, featuring interactive galleries, service listings, and a seamless booking system.

{ Built using React.js, Node.js, Express.js, and REST APIs for full-stack development and data handling. **Technical Skills**

- | | |
|---|---|
| { Programming Languages: JavaScript, Python, C++ | { Web Development: Node.js, Express.js, Django, React.js, HTML, CSS |
| { Databases: PostgreSQL, MySQL, MongoDB, Redis | { Cloud DevOps: AWS, Docker, Celery |
| { APIs Tools: RESTful APIs, Postman, JWT Authentication | { Core CS Concepts: Data Structures Algorithms (DSA), Object-Oriented Programming (OOP) |

Achievements

- { Secured 2nd rank in hackathon organized by O7 Solution at PTU Jalandhar.
- { Solved 300+ coding questions on various competitive programming platforms including LeetCode and Hackerrank.
